PROFESSIONAL SUMMARY

AI-enabled Operations and Business Transformation professional with 6 years of experience leading regional operations, customer experience optimisation, workflow automation, and digital transformation initiatives across Southeast Asia. Proven record in scaling operational systems, standardising multi-country workflows, and improving business performance through GenAI-enabled processes and data-informed decision making.

Experienced in translating business requirements into scalable operational and technical solutions, including CRM/customer portal development, AI-assisted inquiry handling, RAG testing logic, and live reporting workflows. Currently deepening technical capabilities through the SCTP Data Science & AI programme while leveraging strong operational leadership, stakeholder management, and customer excellence expertise.

CORE COMPETENCIES

- | | |
|---|---|
| • Business Operations & Digital Transformation | • AI Workflow Design & Automation Strategy |
| • Customer Experience & Service Excellence | • CRM, Customer Portal & Journey Optimisation |
| • Data Analytics & Operational Reporting | • Regional Operations Management |
| • Process Improvement, SOP Design & Scalability | • Cross-functional Stakeholder Management |
| • Team Coordination & Quality Assurance | • Agile / Adaptive Project Governance |

TECHNICAL SKILLS

AI & Automation: GenAI workflow design, RAG scenario testing, n8n, Claude, ChatGPT, AI prompt logic, automation QA

Data & Analytics: Python, Pandas/NumPy fundamentals, SQL fundamentals, JMP Statistical Discovery, Airtable reporting, operational dashboards

Programming & Web Technologies: C++, C#, JavaScript, jQuery, HTML, CSS, Bootstrap, OOP fundamentals, Unity Hub

Digital & Creative Tools: CRM systems, Jira, Miro, Notion, Photoshop, CapCut, Blender, AutoCAD 365

PROFESSIONAL EXPERIENCE

The Swim Starter Pte Ltd | Digital Operations Manager | 2020 - Present

Business Operations & Digital Transformation

- Led regional operational transformation across five Southeast Asian markets by building scalable SOPs, process logic, and governance structures for consistent service delivery and business expansion.

- Improved sales conversion from 50% to 80% through lead-handling workflow optimisation, designed customer journey, and cross-functional collaboration across Sales, Customer Service, Operations, Finance, and external vendors.
- Scaled the customer base by 10X while supporting 95% customer satisfaction and reducing churn from 30% to 5% through systems adoption, parent-facing service improvements, and structured retention workflows.
- Built and coordinated a 40-person distributed team across Singapore, Indonesia, Malaysia, Vietnam, and Thailand, implementing delegation frameworks, quality controls, and reporting rhythms for operational sustainability.

AI, Automation & Technology Initiatives

- Spearheaded GenAI-enabled workflow integrations using n8n, Claude, and ChatGPT, reducing customer response SLA from approximately 5 minutes to under 30 seconds while automating high-volume inquiry handling.
- Translated business needs into technical roadmaps for CRM, customer portal, AI inquiry workflows, and operational reporting systems, aligning product logic with frontline customer and staff requirements.
- Designed AI testing logic for RAG-based customer conversations, defining edge cases, evaluation scenarios, and QA checks to improve response accuracy and shorten bug-fix cycles.
- Implemented Jira-based technical development and bug-tracking workflows using Agile and Adaptive Project Framework practices to improve project visibility, issue prioritisation, and sprint trade-off decisions.

Customer Excellence, Data & Reporting

- Implemented parent-facing digital workflows, including customer portal functions for progression updates, attendance, test bookings, and service follow-ups, strengthening transparency and customer trust.
- Designed reporting architecture across multiple operational bases, improving management visibility into project health, workflow bottlenecks, development velocity, and service outcomes.

The Swim Starter Pte Ltd | Marketing Executive | 2019 - 2020

Digital Marketing & Customer Acquisition

- Executed performance marketing and remarketing campaigns across Facebook, Instagram, and Google, reducing cost per inquiry by 40% through data-informed creative optimisation and campaign iteration.
- Managed social media content, campaign calendars, landing pages, SEO-aligned web content, and conversion-focused marketing assets to support digital customer acquisition and brand experience.

Customer Journey & Cross-functional Coordination

- Supported customer journey alignment by working with operations and management teams on campaign messaging, lead management needs, and early customer experience workflows.

Epic Events Holding Pte Ltd | Sales and Marketing Executive | 2018 - 2019

Event Operations & Stakeholder Coordination

- Managed end-to-end event operations for public and private sector programmes of up to 800 participants, covering planning, vendor liaison, customer support, and on-site execution.

Digital Brand Engagement & Customer Communication

- Supported digital brand engagement through WordPress content updates, social media coordination, and marketing collateral design to improve campaign visibility and customer communication.

Customer Service & Product Support

- Coordinated product lifecycle support for electronic goods, including pre-sales queries, after-sales coordination, warranty support, and servicing appointments to maintain service standards.

EDUCATION

Nanyang Technological University | SCTP Data Science & Artificial Intelligence Programme | Expected Graduation: September 2026

Singapore University of Social Sciences | Bachelor of Science in Digital Media | May 2026

Singapore Polytechnic | Diploma in Engineering with Business

CERTIFICATES & LICENSES

- Alibaba International Graduation Certification: Digital Business and AI Innovation Research (2025) | Singapore University of Social Sciences | Jun 2025
